Intellectual Property and Emerging Technologies

The New Biology

Queen Mary Studies in Intellectual Property series

Edited by Matthew Rimmer, Professor of Intellectual Property and Innovation Law, Faculty of Law, Queensland University of Technology (QUT) and Alison McLennan, Assistant Professor, Faculty of Business, Government & Law, University of Canberra, Australia

This unique and comprehensive collection investigates the challenges posed to intellectual property by recent paradigm shifts in biology. It explores the legal ramifications of emerging technologies, such as genomics, synthetic biology, stem cell research, nanotechnology, and biodiscovery.
