Short Write Up Protocol for the research

Title: How many people in West Bengal wants to take COVID 19 vaccine when it will be commercially available? – A Cross-sectional study

Guide: Dr Arup Kumar Mitra, PhD

Associate professor and founder head, Dept of Microbiology, St. Xavier's College(autonomous) , Kolkata, post doc from South Bank University, UK

Research team: 1. Bikram Dhara, St. Xavier's College(Autonomous) , Kolkata, India

2. Arunodaya Gautam, University of Calcutta, India

3. Dattatreya Mukherjee, Jinan University, P.R China

4. Sayan Roy, Pondicherry University, India

5. Srishti Basu, Jilin University, P.R China, Internship in Calcutta

Medical College, Kolkata

6. Soumya Sarathi Ganguly, IIT Kharagpur, India

7. Deboshmita Banerjee, University of Calcutta, Kolkata

8. Ankita Dutta Chowdhury, St. Xavier's College(Autonomous), Kolkata

9. Soumi Chatterjee, St. Xavier's College (Autonomous), Kolkata

10. Debraj Mukhopadhyay, Department of Public Health, School of Allied Health Sciences, Delhi Pharmaceutical Sciences and Research University (DPSRU), Govt. of N.C.T Delhi, New Delhi, India

Institutes: St. Xavier's College(Autonomous) , Kolkata

University of Calcutta

Jinan University

Indian Institute of Technology, Kharagpur

Pondicherry University

Jilin University

Public Consent: Will be attached with the survey form

COI: Author has no conflict of interest

Funding: Nil

Area of Research: West Bengal(INDIA)/ Survey based cross-sectional study

Approx. survey subjects: 1000 persons (Can be extended)

Survey structure:

This Cross-sectional prospective study will be presented through a survey which will be prepared in the google form stating all the respective study questions. The google form will be circulated among the 1000 people from West-Bengal. After completion of the respective survey, all the information will be analyzed. How many people want to take the vaccine and how many people don't want to take the vaccine are the main criteria of this study. The survey will be in English Language which will be very easy and understandable. In the demographic analysis, age, gender and educational qualification will be analyzed. According to our research project, from this research our team will analyze how many people want to take vaccine and how many don't want. Then our team will analyze that which age group is more interested towards the vaccine than other groups. Moreover, Groups are based on age, gender and educational qualification.

We will see the **acceptance and affordability of COVID 19 Vaccine**

- How many people want to join the survey?
- How many people want to take vaccine?
- How many want Indian vaccine and How many want foreign vaccine?
- Affordability of the vaccine
- Age wise Vaccine Acceptance

Google Form: (CODE BOOK)

1. Consent form: This is a Survey based study where we want to know that you want to take vaccine or not when it will be available in market. Your all details will be confidential. This will take 2 minutes only. Thank You.

Agree/ Not Agree

2. Age group: 15-25/25-35/35-45/45-55/55-65/65+
 3. Educational qualification: Upto 10 or below/ Upto 12/ Graduation/Post Graduation/ Doctoral/ Post Doctoral
 4. Gender: Male/Female/Others
 5. Do you want to take COVID 19 vaccine when it will be commercially available?: Yes/No/Don't know
 6. If No then why don't want?
 7. If Yes, then You want vaccine of? Indian Vaccine/Foreign vaccine
 8. Your affordable cost of vaccine: below 500/below1000/ above 1000
