

Journal	Statement of commitment	Disciplinary scope	Word limits	Offered for scientific review	Offered for consideration	Minimum required thresholds for pre-planned statistical evidence, where applicable	Minimum required level of bias control to control against prior data observation	Policy on starting of data, look and digital materials	Offered for meta-analysis, systematic reviews, meta-analyses, or scoping reviews	Offered for Pre-registered RRs	Required article processing charge	Submission fee	Other publication charge (e.g. colour figure charges, page charges)	Open option for authors to publish their Stage 1 manuscript in the journal or to transfer to the open option	Require peer review to be signed	Any additional conditions or requirements
Addiction Research & Theory	"Addiction Research & Theory and automatically offer Stage 1 in-principle acceptance (IPA) to any quantitative Stage 1 RR within the journal's disciplinary scope that receives IPA at PCJ RR, and will accept without further peer review any Stage 2 RR that has been recommended by PCJ RR, subject to authors paying the applicable article processing charge and the manuscript meeting the applicable journal requirements concerning bias control and formatting."	Research in multiple fields involving addictive behaviour arising from the interaction of biological, psychological, and social factors, which the behaviour takes place as much as from the biological effects of the psychoactive substances as from the psychological effects of the psychoactive substances or which involve the interaction of biological, psychological, and social factors, either/or cognitive psychology, developmental cognitive psychology, and cognitive neuroscience	Abstract: max 200 words Full text: max 5,000 words (including references, tables, and figure captions). For RRs, abstract should be concise (i.e. 100 words) and focused on the research objectives and hypotheses. For RRs, only outcomes that receive a significant effect size (d) of 0.25 or greater are eligible for consideration.	No	Yes	N/A	N/A	Same or less stringent than PCJ RR	Yes	Yes	N/A	N/A	N/A	Colour figure charges for print only	No	N/A
Advances in Cognitive Psychology	"Advances in Cognitive Psychology will automatically offer Stage 1 in-principle acceptance (IPA) to any quantitative Stage 1 RR within the journal's disciplinary scope that receives IPA at PCJ RR, and will accept without further peer review any Stage 2 RR that has been recommended by PCJ RR, subject to authors paying the applicable article processing charge and the manuscript meeting the applicable journal requirements concerning bias control and formatting."	Research in biologically derived theoretical and experimental topics, including human studies in psychopathology, developmental cognitive science, and cognitive neuroscience, as well as animal studies pertaining to the evolution of language and communication	N/A	No	Yes	N/A	N/A	Same or less stringent than PCJ RR	Yes	Yes	£500. Warners are available. <a href="https://www.cambridge.org/core/terms">https://www.cambridge.org/core/terms</a>	N/A	N/A	No	No	N/A
Advances in Methods and Practice in Psychological Science	"Advances in Methods and Practice in Psychological Science will automatically offer Stage 1 in-principle acceptance (IPA) to any quantitative Stage 1 RR within the journal's disciplinary scope that receives IPA at PCJ RR, and will accept without further peer review any Stage 2 RR that has been recommended by PCJ RR, subject to authors paying the applicable article processing charge and the manuscript meeting the applicable journal requirements concerning bias control and formatting."	For regular RRs, original studies or replications that focus on identifying methods, practices, or interventions in any area of psychology and related disciplines. For Registered Replication Reports (RRRs) and/or direct replications in any area of psychology that involve controlled, randomised experiments that receive a significant effect size (d) of 0.25 or greater, only outcomes that receive a significant effect size (d) of 0.25 or greater are eligible for consideration.	The maximum length for regular RRs is 5,000 words (including references, tables, and figure captions). For RRs, abstract should be concise (i.e. 100 words) and focused on the research objectives and hypotheses. For RRs, only outcomes that receive a significant effect size (d) of 0.25 or greater are eligible for consideration.	Yes	Yes	N/A	N/A	Same or less stringent than PCJ RR	Yes	Yes	£1000 USD. Discounts and waivers are available. <a href="https://www.cambridge.org/core/terms">https://www.cambridge.org/core/terms</a>	N/A	N/A	No	No	N/A
Brain and Neuroscience Advances	"Brain and Neuroscience Advances will automatically offer Stage 1 in-principle acceptance (IPA) to any quantitative Stage 1 RR within the journal's disciplinary scope that receives IPA at PCJ RR, and will accept without further peer review any Stage 2 RR that has been recommended by PCJ RR, subject to authors paying the applicable article processing charge and the manuscript meeting the applicable journal requirements concerning bias control and formatting."	Research in biologically derived theoretical and experimental topics, including human studies in psychopathology, developmental cognitive science, and cognitive neuroscience, as well as animal studies pertaining to the evolution of language and communication	Abstract: max 200 words	No	Yes	N/A	N/A	Same or less stringent than PCJ RR	Yes	Yes	£1,500. I am preparing JCL	N/A	N/A	No	No	N/A
Cambridge Educational Research & Journal	"Cambridge Educational Research & Journal will automatically offer Stage 1 in-principle acceptance (IPA) to any quantitative Stage 1 RR within the journal's disciplinary scope that receives IPA at PCJ RR, and will accept without further peer review any Stage 2 RR that has been recommended by PCJ RR, subject to authors paying the applicable article processing charge and the manuscript meeting the applicable journal requirements concerning bias control and formatting."	Research in any area of education	N/A	Yes	Yes	N/A	N/A	Same or less stringent than PCJ RR	Yes	Yes	N/A	N/A	N/A	Yes	No	N/A
Cognitive Psychology	"Cognitive Psychology will automatically offer Stage 1 in-principle acceptance (IPA) to any quantitative Stage 1 RR within the journal's disciplinary scope that receives IPA at PCJ RR, and will accept without further peer review any Stage 2 RR that has been recommended by PCJ RR, subject to authors paying the applicable article processing charge and the manuscript meeting the applicable journal requirements concerning bias control and formatting."	Research in any branch of cognitive psychology, social psychology, personality psychology, clinical psychology, developmental psychology, experimental psychology, psychological methodology, and research practice in psychology	Abstract: max 200 words	Yes	Yes	For submissions that achieve Level 2 bias control: power > 0.80 for all pre-registered hypotheses tests that employ null hypotheses significance testing.	Same or less stringent than PCJ RR	Yes	Yes	Yes	USD \$25. Warners are available. <a href="https://www.cambridge.org/core/terms">https://www.cambridge.org/core/terms</a>	N/A	N/A	No	No	N/A
Communications in Knowledge	"Communications in Knowledge will automatically offer Stage 1 in-principle acceptance (IPA) to any quantitative Stage 1 RR within the journal's disciplinary scope that receives IPA at PCJ RR, and will accept without further peer review any Stage 2 RR that has been recommended by PCJ RR, subject to authors paying the applicable article processing charge and the manuscript meeting the applicable journal requirements concerning bias control and formatting."	Research in any area of knowledge, including the intersection with philosophy and natural, social, and computer psychology, sports medicine and education. Some studies on reality, development, physical activity, health, and mind.	N/A	Yes	Yes	N/A	N/A	Same or less stringent than PCJ RR	Yes	Yes	N/A	N/A	N/A	Yes	No	N/A
Cortex	"Cortex will automatically offer Stage 1 in-principle acceptance (IPA) to any quantitative Stage 1 RR within the journal's disciplinary scope that receives IPA at PCJ RR, and will accept without further peer review any Stage 2 RR that has been recommended by PCJ RR, subject to authors paying the applicable article processing charge and the manuscript meeting the applicable journal requirements concerning statistical thresholds, bias control, and formatting."	Cognitive psychology, cognitive neuroscience, neuropsychology	N/A	No	Yes	For studies employing Bayes hypothesis significance testing: power > 0.80 and alpha < .05 for all pre-registered hypotheses tests. For studies employing Bayesian hypothesis testing: data collection until Bayes Factor (BF) is in favour of H1 or 10 for all pre-registered hypotheses. CH authors can specify a maximum feasible sample size at which data collection must cease regardless of the BF provided the sample is sufficiently large that nonconcrete results at this sample size would be an important message for the field.	Same or less stringent than PCJ RR	Yes	Yes	No	N/A	N/A	N/A	No	No	N/A
Experimental Psychology	"Experimental Psychology will automatically offer Stage 1 in-principle acceptance (IPA) to any quantitative Stage 1 RR within the journal's disciplinary scope that receives IPA at PCJ RR, and will accept without further peer review any Stage 2 RR that has been recommended by PCJ RR, subject to authors paying the applicable article processing charge and the manuscript meeting the applicable journal requirements concerning statistical thresholds, bias control, and formatting."	Experimental psychology: quantitative experiments in psychological science only	Abstract: max 200 words	No	Yes	N/A	N/A	Same or less stringent than PCJ RR	No	Yes	USD \$1,000.
