Introducing *Mondo 2000* and its predecessors to a new audience — working research documents.

Camille Akmut

February 13, 2022

abstract

An overview relating to staff, authors, contributors, institutions and events is provided, as well as table of contents for issues 1 to 11 of *Mondo 2000*, 5 and 6 of *Reality Hackers*, and 4 of *High Frontiers*; covering pre-history, beginnings all the way up to “symbolic” end of this hacker magazine which originated as a drug, science, art newspaper.

Note : references to issues of *High Frontiers* and *Reality Hackers* are preceded by the mention of H and R respectively. When nothing is specified, or cannot be derived obviously from the content, M is meant (standing in place for Mondo).
