Abstract

The World Intellectual Property Organization (WIPO) is an organization under the United Nations. which specializes in the field of intellectual property rights. WIPO was formed in 1967 with the aim "to encourage creativity and introduce protection of intellectual property throughout the world. WIPO currently has 184 countries

in wipo there is a registration system that regulates the Patent Cooperation Agreement, namely the Madrid System for the brand and the Hague system for the Right to Industrial Design

Kata Kunci : terms of joining wipo,wipo

A. INTRODUCTION

The World Intellectual Property Organization (WIPO) is an organization under the United Nations, which specializes in the field of intellectual property rights. WIPO was formed in 1967 with the aim "to encourage creativity and introduce protection of intellectual property throughout the world.

WIPO currently has 184 countries, and holds 23 international agreements, with its headquarters in Geneva, Switzerland. Countries that are not members of the WIPO are Kiribati, the Marshall Islands, Federated States of Micronesia, Nauru, Palau, Palestine, the Arab Sahrawi Democratic Republic, Solomon Islands, Taiwan, East Timor, Tuvalu, and Vanuatu

WIPO was formally established by the Convention on the Establishment of a World Intellectual Property Organization (signed in Stockholm on July 14, 1967

and amended on September 28, 1979). Under article 3 of this convention, WIPO seeks to "promote the protection of intellectual property rights (IPR) to all corners of the world." In 1974 WIPO became a special representative of the United Nations for this purpose.

WIPO has a substantial source of funds, apart from contributions from its member countries. In 2006, more than 90% of its revenues of around 500 million CHF were estimated to come from fee-based income obtained by the International Bureau (IB) from the HAKI application and registration system governing the Patent Cooperation Treaty the Madrid System for brands and systems The Hague for the Right to Industrial Design

WIPO has four main organs consisting of

1. the General Assembly
2. Conference
3. Coordination Committee
4. Secretariat

Requirements to join Wipo :

1. Registration can be done through the Directorate General of Islamic Education on several conditions. First, companies must have a brand

2. Ditjen KI will ask the company or brand owner to fill out the MM2 form. Data included in the form should be in accordance with the data stated on the application for national brand registration. The company must also choose the destination countries where the brand will be registered.

3. After the MM2 form is declared eligible, then the form will be sent to the WIPO international bureau in Geneva, Switzerland. In international bureaus, forms will be forwarded to destination countries. Each country has the right to carry out a check first before agreeing to a trademark registration application.

At least, there are two types of costs that must be spent by employers to register their brands through WIPO,

namely basic fees and individual fees. The basic fee is paid directly to the international bureau of 653 CHF, while the individual fee is paid to the destination country whose amount depends on the regulations of each country

One of the main advantages is the increasingly easy export process. Brands that are already registered in certain countries will be easier to promote and advertise, which means the brand can be better known internationally

Republic of Indonesia Presidential Decree Number 74 of 2004 concerning Ratification of the WIPO Performances and Phonograms Treaty, 1996 / WIPO Treaty Concerning Performances and Voice Records

B. CONCLUSION

The World Intellectual Property Organization (WIPO) is an organization under the United Nations. One of the main advantages is the increasingly easy export process

WIPO has four main organs consisting of the general assembly, conference, coordinator committee, secretariat.

the law governing wipo :
